1932, Indiana. Stock for 2 fiftieths of a share. Orange. No. vignette. The Auburn traces its roots back to 1900, when the Eckhart brothers of Auburn, Indiana began selling their hand-built cars to the locals. Formal production began in 1903, with a single-cylinder chain-driven run-about being offered. The company prospered modestly until 1924, when it was bought by financier E.L. Cord who was in the process of assembling the Auburn-Cord-Duesenberg (A-C-D) combine which would last until the mid-1930's and produce some of the finest automobiles ever built in the U.S. Cord redesigned the Auburn and from that point on, the Auburn took a leading position in the U.S. automotive industry until the failure of A-C-D ca. 1937. The 1931 Auburn was the sleekest car in the company's history, and sales reached a peak of 28,103 that year. The company's most famous model, the boat-tail speedster of 1935, was guaranteed to do better than 100 mph. By 1937, all production had ceased, and the A-C-D combine was dissolved. It soon became one of the three principal express companies in the United States, the others being Wells, Fargo & Co. and American Express. In addition, at least one slave was shipped north to Philadelphia in a box in order for his master to free him.
