COMPAGNIE IMPERIAL  
INDIA COMPANY**

**\* 564**  
1723, Antwerp. Stock certificate for 1 share. Black. Vignette of the Hapsburg crest at top center. The Imperial India Company was authorized by Charles VI of Austria to trade with the East and West Indies as well as the African coast. Commodities traded included such items as coffee, tea, spices, gold, silver and silk. At the time the stock was issued in 1723, success was widely predicted and the issue was oversubscribed in a matter of hours. Investors were not disappointed, as the company paid very high dividends from the very first, frequently over 30% per year. In fact, the company was so successful that war was threatened by numerous competitor nations such as France and England. In 1731, partly in order to smooth the way for the accession to the throne of his daughter, Maria Theresa, Charles ordered the company to cease operations and begin liquidation, a process which took some 10 years. Each share had a par value of 1000 guldens, paid by the shareholder in 4 equal installments of 250 guldens. Payment of these installments is noted at the bottom of the certificate. Numerous notables sign the certificate, including, Pietro Proli, a well-known merchant of the day. This is the earliest stock certificate available to collectors, the only earlier known certificate being a 1606 piece in the Dutch Oost-Indische Compagnie owned by the Amsterdam Stock Exchange. The Tehuantepec Company was formed as a result of a grant given to Don Jose de Goray by in 1842 by Antonio Lopez de Santa Anna, President of the Republic of Mexico. The grant stated the purpose of the company was to open "a line of communication...between the Pacific and Atlantic Oceans, through the Isthmus of Tehuantepec" in Mexico. Through a combination of canals (whenever practicable), railroads and steam-carriages, the Tehuantepec Company would provide a fast, commercially feasible link between the two oceans opening a profitable Asiatic trade via San Francisco and Tehuantepec. Support of the concept was widespread and included Judah Benjamin, President Fillmore, Daniel Webster and numerous other notables. Unfortunately, the company dissolved amid a rivalry between the promoters and ultimately, financial failure. An attempt at resurrecting the company was begun with four rival groups claiming ownership to de Goray's original grant in 1842. An extremely historic forerunner to the Panama Canal. This once large and powerful company was incorporated in Virginia in 1880 with authority to acquire stocks and bonds of railroad companies in Virginia, South Carolina, North Carolina, Mississippi, Georgia, Kentucky, and Alabama. " It was organized in the interest of the Richmond and Danville Railroad Company for the purpose of acquiring control of railroads not directly connecting with the R&D, which was prohibited by its charter from owning the stock of non-connecting lines.

One of the Terminal Company's arms, the Richmond and Danville Extension Company, was incorporated in New Jersey in 1881 with the authority to construct and equip railroads throughout the nation. The Extension Company constructed the Georgia Pacific Railway from Atlanta to Greenville, Mississippi.

By November of 1887, the Terminal Company controlled 4,500 miles of railroad.

In 1892 the company entered receivership. It was dissolved and replaced by the Southern Railway Company in 1894. The new company took over the properties of the Richmond and Danville, the East Tennessee, Virginia and Georgia, and a number of the R&D's subsidiary lines." <http://railga.com/rwpt.html>. 1920. Stock certificate for 20 shares of the Boston American League Base-Ball Club. Orange\Black. Vignette of a seated allegorical figure at center. Litho. Signed as president by **HARRY FRAZEE** (1881 - 1929). American theatrical agent and producer; owner of the Red Sox who will remain in infamy as the man who sold Babe Ruth to the New York Yankees. Frazee owned the Red Sox from 1916 - 1923 having purchased them for less than \$500,000. During World War I the team sustained losses even while winning the World Series in 1918. As a result, he began selling off the team's major stars, sometimes in an effort to offset the costs of his theatrical shows. In 1919, in an effort to finance a Broadway musical titled No, No Nanette, he sold Babe Ruth to the New York Yankees, a move widely considered to be the worst ever made in sports history. Frazee died at the relatively young age of 48 following a lengthy illness.

The certificate is pen cancelled a number of times over the face of the certificate as well as at Frazee's signature. A scarce to rare certificate signed by one of Baseball history's most infamous characters and one of America's most enduring and most beloved franchises. \$750 - up

vignette of an ocean going three masted steamship. Fold at center. Founded by Captain James A. Scrymser, the company was granted the rights to land a cable at Punta Rassa for a period of twenty years. "At the same time General William F. Smith applied to the Cuban Government for similar cable landing rights in Cuba; this was granted for a period of forty years. The success of these two applications led to the formation of the International Ocean Telegraph Company. An Act of Congress passed on 5 May 1866 granted the company exclusive rights to operate all Cuban traffic for a period of fourteen years. At the same time exclusive rights to operate a private landline between Punta Rassa and

Lake City was also granted. At Lake City the line linked with Western Union's network." ([www.atlantic-cable.com](http://www.atlantic-cable.com)). The company operated successfully for many years and in 1957 it was absorbed by Western Union. There has been a small repair at the vignette. Scarce specimen of this important company. \$200 - up
